SUSTAINABLE COMMUNITIES LEADERSHIP ACADEMY

Innovations in Building Resilient Communities II
Hilton Doubletree | Pittsburgh, PA
April 16-18, 2018

AGENDA

MONDAY, APRIL 16 | DAY 1

Theme: What’s Possible?

12:00 – 1:00 PM  Registration, Refreshments, and Networking
Room: Three Rivers Foyer

1:00 – 1:20  Welcoming Remarks
Deb Perry, Program Director, Institute for Sustainable Communities

1:20 – 2:15  Plenary 1 – Community Resilience-Building in Action: Stories from Southeast Florida, San Diego, and Detroit
Moderator: Steve Adams, Director of Urban Resilience, Institute for Sustainable Communities
Jill Horwitz, Natural Resource Specialist, Broward County
Donna Givens, President and CEO, Eastside Community Network
Nicole Capretz, Founder and Executive Director, Climate Action Campaign

2:15 – 3:00  Keynote: A Seat the Table – A Discussion on Equity and Inclusion
Room: Monongahela
Kerene N. Tayloe, Esq., Policy Director, Green for All

3:00 – 3:15  Break
3:15 – 4:30  Breakout Sessions: Round 1

1. Communicating with Art
   Room: Monongahela
   Join Maxx Moses, Community Artist, and John Stephen, Larimer Consensus Group, to explore how we can engage, communicate, and connect with the community through art and other visual experiences. Learn how artists can help bring resilience projects to life, educate the community, and inspire action, and discuss strategies for partnering with local artists in your community.

2. Successful Approaches to Resilience Planning
   Room: Allegheny
   Join Steve Adams, ISC, and Evelyn Kasongo, D.C. Office of Planning, to discuss different ways to formalize resilience initiatives into a planning document. Hear how some communities create a stand-alone plan, while others include resilience elements in existing plans, such as comprehensive, hazard mitigation, or sustainability plans. Learn about successful strategies for resilience planning and share your approach.

3. Workforce Training: Giving Residents the Skills and Opportunities to Thrive
   Room: Ohio
   Across the country, programs are emerging that not only build green projects, but also create more resilient economies and build local wealth by training local people to step into these new job opportunities. This session, led by Ilyssa Manspeizer, Landforce; John Huffington and Krystle Starvis, Living Classrooms Foundation; and August Ball, Cream City Conservation Corps, will explore how programs in Pittsburgh, Baltimore, and Milwaukee are helping residents from low-income communities gain the skills, certifications, and network connections they need to join the green workforce.

4. Building Resilience at the Neighborhood Scale
   Room: Scranton
   Join Jeffrey Wilkerson, City of Trenton; Victoria Oliver, Detroit Future City; and Christine Mondor, evolveEA, to discuss how neighborhood-scale resilience efforts—from detailed economic revitalization initiatives to targeted tactical urbanism projects—can yield immediate and tangible benefits to communities. This session will explore successful approaches to neighborhood resilience, especially as they relate to city- or region-wide planning and building social capital.

4:30 – 5:30  Team Huddle 1
   Teams meet separately to discuss the status of their efforts, identifying accomplishments and challenges. Each team has time to discuss goals for this workshop and strategize ways to maximize the impact of their new connections and insights.

5:45 – 7:00  Networking Reception – Cash Bar
   Room: Bigelow Patio (rain location: Three Rivers Foyer)
TUESDAY, APRIL 17 | DAY 2

Theme: Explore and Inspire

8:00 – 9:00 AM  Coffee with Counterparts  
Room: Monongahela  
Connect over breakfast with individuals from other teams who are facing similar climate challenges. Breakfast is provided.

9:00 – 9:15  Opening Remarks and Today’s Objectives  
Room: Monongahela  
Deb Perry, ISC

9:15 – 10:30  Breakout Sessions: Round 2

1. **Ensuring that Disaster Recovery Strengthens Long-Term Resilience**  
   Room: Monongahela  
   Following a natural disaster, communities are working to rebuild in ways that will strengthen their future resilience. However, these efforts can be constrained by regulations, funding, time, and resources. In this session, we’ll hear from communities that have experienced disasters and recovery. Join Ted Berger, Cook County Homeland Security and Emergency Management; Gavin Dillingham, Houston Area Research Council; Craig Davis, Texas General Land Office; and Hank Hodde, Smart Home America, to share lessons and ideas about successfully integrating resilience into recovery.

2. **Partnering with Local Leaders to Transform Communities**  
   Room: Allegheny  
   Local leaders, whether they are activists, nonprofit representatives, or caring neighbors, are central stakeholders in urban resilience planning and policy. In this session, join Dan Dickerman, Homewood Children’s Village; Nicole Capretz, Climate Action Campaign; and Sarah Jack Hinners, University of Utah and University Neighborhood Partners, to learn about three successful, long-term initiatives that build the capacity of local leaders to take on a range of issues, from tackling environmental justice to creating equitable economic development. Discuss ways to strengthen your own partnerships with local leaders and build long-term community engagement.

3. **The Patchwork Quilt: Ways to Fund Your Resilience Projects**  
   Room: Ohio  
   As communities move from planning to implementation, they often run into the challenges related to financing. This session, led by Steve Adams, ISC, is intended to help organize thinking about finance—introducing categories of finance options and exploring how communities can think strategically to develop their projects, build partnerships, and ask the right questions as they develop a financing strategy.

10:30 – 11:00  Networking Break
11:00 – 12:00 PM  Plenary 2 – Using Data to Advance Equitable Development: Case Studies from the All-In Cities Initiative
   Room: Monongahela
   James Crowder, Senior Associate, PolicyLink

12:00 – 12:30  Lunch
   Room: Monongahela

12:30 – 1:15  Team Huddle 2
   Teams meet to discuss how they can take action on the new information and ideas they are acquiring at the workshop.

1:15 – 1:45  Plenary 3 – Building a Resilient Pittsburgh
   Room: Monongahela
   Grant Ervin, Chief Resilience Officer, City of Pittsburgh

2:00 – 5:00  Tour: Triboro EcoDistrict
Theme: Strategize and Commit

7:30 – 8:30 AM  Coffee with Counterparts  
*Room: Monongahela*  
Connect over breakfast with individuals from other teams who work in similar roles or organizations. Breakfast is provided.

8:30 – 8:45  Opening Remarks and Today’s Objectives  
*Room: Monongahela*  
Deb Perry, ISC

8:45 – 10:00  Breakout Sessions: Round 3

1. **Building Community Resilience in the Phoenix Metro Region by Strengthening Relationships and Improving Outcomes in Social Services**  
*Room: Monongahela*  
Since 2016, ISC has been working in close partnership with a local foundation in Maricopa County, Arizona to build social cohesion and cross-sector collaboration as a means to increase community resilience county-wide. Join Karina French, ISC, to learn more about the approaches and tools used to implement this work, and how the data-driven process is addressing pressing issues and community needs, ultimately building community resilience.

2. **Transforming Vacant Properties into Valuable Community Assets**  
*Room: Presidential Suite*  
Across the country, there are organizations that look at blighted, vacant properties and see the potential for transformation. Join Barry Pollard, The Urban Collaborative Project; Miriam Parson, ioby; and Tim McCollow, City of Milwaukee Environmental Collaboration Office, to learn about the partnerships, patience, skills, and resources required to turn these lots into community spaces used for gardening, stormwater treatment, energy, education, and more.

3. **Inclusive Energy Programming: Approaches to Reach Low-Income Communities**  
*Room: Ohio*  
In this session, Anita Ledbetter, Build San Antonio Green, and Kevin Emerson, Utah Clean Energy, will share strategies for reducing the energy burden for low-income households and ensuring that clean energy and energy efficiency programs are accessible and meet the needs of all residents.

4. **Toolkits for Community Resilience**  
*Room: Allegheny*  
There are an increasing number of resilience planning tools available to local communities. Finding the right tool and accessing appropriate training, however, can be daunting. Join Daphne Vivarette, Mississippi Department of Marine Resources; Kimberly Miller, Allen Engineering and Science; and Annette Osso, Resilient Virginia, to learn about two initiatives that successfully developed and disseminated customized community resilience toolkits, and discuss ways to make toolkits relevant and accessible to your community.
